COLLATERAL AND SECURITY

Collateral And Security

Equipment as Collateral

All medical equipment procured using the advanced facility shall be considered collateral and shall remain the exclusive property of the Vestitude Partners Limited and her financiers until the Hospital has fully repaid the principal, interest, penalties, and any other amounts due under this Agreement.

Restrictions on Collateral

The hospital shall not sell, lease, use as security, encumber, transfer ownership of the equipment or deal with the collateral in a way that extinguishes the collateral, for the duration of this agreement.

Support and Monitoring

1. Dedicated Account Manager

Each hospital shall be assigned a dedicated Key Account Manager after funding and completion of project. They will provide ongoing support and serve as the primary point of contact throughout the funding period.

2. Ongoing Monitoring

Regular progress assessments shall be conducted to evaluate the hospital's operational performance and to ensure timely repayments, thereby minimizing the risk of non-accrual loans.

3. Healthcare Business Support Services

Beneficiaries shall have access to specialized support services, including financial planning, business advisory, and accounting services, to support the sustainable growth of their healthcare institutions. In addition, partnerships within Vestitude's ecosystem may provide incentives such as collaborative opportunities and market expansion initiatives.

Why Choose Us?

We Enable Healthcare Projects Not Loans

Unlike traditional financial institutions, that disburse loans and leave hospitals to manage execution, we structure finances and deliver projects for hospitals, end-to-end, not place debt on their balance sheets.

Healthcare-Specific Project Financing

Unlike banks rely on rigid, generic frameworks that often do not reflect healthcare realities, we facilitate healthcare-specific financing structures, that captures industry peculiarities.

Capital Combined With Execution

Beyond financing, we support project design, equipment procurement, installation, commissioning, and operational readiness—ensuring projects succeed, not just start.

Long-term Growth Partner

We go beyond transactions to support hospitals so they can grow and thrive. Many return for additional or expanded services, reflecting a relationship built on performance, and shared growth.
